

## GeoTeriC Technology Forum

### Agenda

We hope you enjoy the day and take away lots of useful GeoTeriC information from all of the presentations & discussions.

9:00	Registration	Arrival tea & coffee
9:30	Mark Walker, GeoTeriC	Introduction
9:45	Tom Woollorton, GeoTeriC In collaboration with PGS	De-risking prospects offshore Brazil using a Cognitive Interpretation
10:15	Hugo Garcia, GeoTeriC In collaboration with IMP	Cognitive Interpretation workflow classifying unconventional plays in Mexico: A collaboration with Instituto Mexicano del Petroleo
10:45	Break	Tea & Coffee
11:15	Ken Abdulah and Clémence Prazuck. Subsurface Clarity	Intergrated 3D Seismic Data Volume InterpretationWorkflow Using GeoTeriC® and Paleoscan®
11:45	John Fuqua, Cegal	Introducing GeoCloud
12:15	Lunch	Buffet style lunch will be served in Woodbine
1:15	Gaynor Paton, GeoTeriC	Redefine Your Seismic Interpretation with Adaptive Horizons and Faults
1:45	James Lowell, GeoTeriC	What is machine learning and how can it be used for seismic interpretation?
2:15	Break	Tea & Coffee
2:45	Rachael Moore, GeoTeriC	Calibration of frequency decomposition colour blends using forward modelling. Examples from the Scarborough Gas field, Offshore West Australia
3:15	Gaynor Paton, GeoTeriC	GeoTeriC in 2017 and Beyond
3:45	Mark Walker, GeoTeriC	Closing
4:00	Drinks Reception	Join us for refreshments
