# PIP Installation: Geoteric Link for Petrel 2023

#### **Prerequisites:**

\* Petrel installed (Current supported versions are 2021, 2022 and 2023)

\* Geoteric installed

\* Valid Geoteric license

Note that the Geoteric Link for Petrel 2023 is tested with Petrel 2023.1.

To uninstall a previous **MSI installation** of the Geoteric Link to Petrel, go into the Control Panel > Programs > Programs and Features and uninstall the "Geoteric Link for Petrel 20xx" from the program list.

To uninstall a previous **PIP installation** of the Geoteric Link for Petrel, go into Petrel and go to Help > Plug-in Manager. Please note that Petrel will need to be restarted to uninstall the Plug-in completely.

Note that administrator privileges will be required to install the Geoteric Link for Petrel.

▲ Do not have more than one instance of Geoteric open at one time during the transfer of objects between projects, since this may result in objects transferring to the wrong project.

#### Installation

Open Petrel and select the "File", "Options" menu and select "Plug-In Manager".
