

PIP Installation: Link for Petrel

Prerequisites:

- * Petrel installed (Currently supported versions are 2017, 2018 and 2019)
- * Geoteric installed
- * Valid Geoteric license

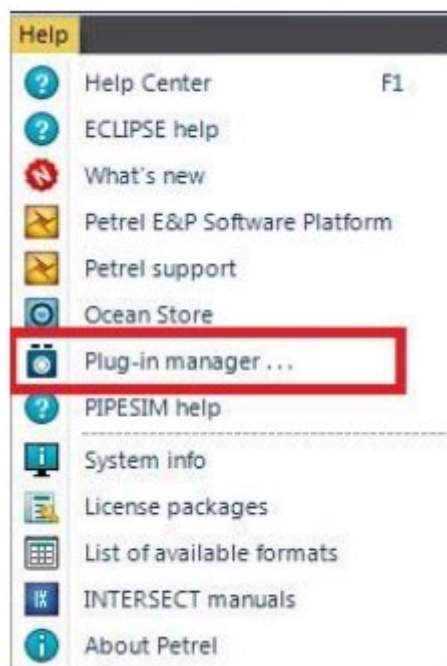

Please ensure any previous versions of the Link for Petrel have been uninstalled first.

To uninstall a previous MSI installation of the Link to Petrel, you will need to go into the Control Panel > Programs and Features and uninstall the link from the program list.

To uninstall a previous PIP installation of the Link for Petrel, you will need to go into Petrel and go to Help > Plug-in Manager. Please note that Petrel will need to be restarted to uninstall the Plug-in completely.

Installation

Open Petrel and select the “Help menu” and select “Plug-In Manager”.

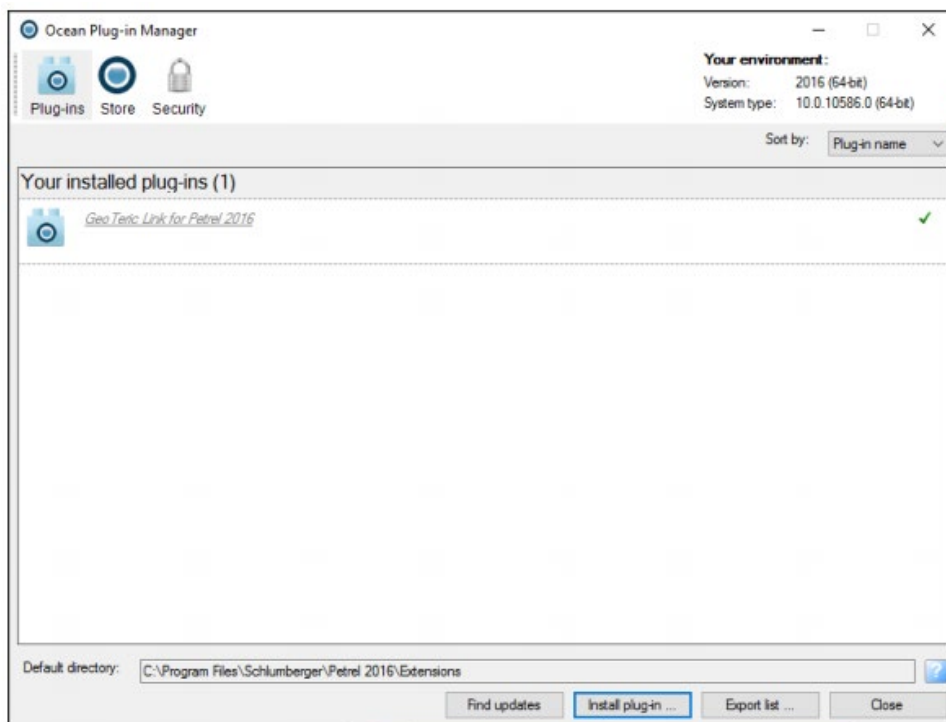

Click on “Install Plug-in” button and browse to the Geoteric installation folder. By default, this can be found at C:\Program Files\ffA\Geoteric 20XX.X\ or C:\Program Files\Geoteric\Geoteric 20XX.X\ and open the Link for Petrel folder. Open the PIP folder that relates to the version of Petrel you need the link for and run the installer to start the installation.

Click "Close" to complete the installation.

Please note that Petrel now needs to be restarted before the link is available to use.
