

MSI Link for Petrel Installation Guide

Prerequisites:

* Petrel installed (Current supported versions are 2015, 2016, 2017 and 2018)

- * Geoteric installed
- * Valid Geoteric license

Please ensure any previous versions of Link for Petrel have been uninstalled first.

To uninstall a previous MSI installation of the Link to Petrel you will need to go into the Control Panel > Programs and Features and uninstall the link from the program list.

To uninstall a previous PIP installation of the Link to Petrel you will need to go into Petrel and go to Help > Plug-in Manager. Please note that Petrel will need to be restarted to completely uninstall the Plug-in.

Installation

Browse to the Geoteric installation folder. The default path for the installation is set to be either C:\Program Files\Geoteric\Ceoteric 201X.X\ or C:\Program Files\ffA\Geoteric201X.X\

Now open the Link for Petrel folder and open the MSI folder that relates to the version of Petrel you're using and run the installer to start the installation wizard.
